

LOOKING TO GET A WEBSITE

HERES SOME WEBSITE DESIGNER TIPS
FOR WHATS NEEDED

1

A DOMAIN NAME

A domain name is a naming service enabling people to visit your website pages.

Choose a domain name that is

- closely matching your business name
- easy to remember , simple, clear

Domain names cost approximately \$1-\$15 per year
You can check if your domain name is available by visiting sites like name.com.

You can purchase your domain name from sites like [IONOS](https://ionos.com) for low cost domain name purchase.

2

SSL SECURITY CERT

A SSL certificate is incredibly important as it protects private information used on your site like credit card details and transactions. It provides customers security when browsing your website.

Your SSL certificate can be included in the cost of your domain name purchase when you purchase through sites like Wix. Or a additional ad on that you should definatelynpurchase . Costs start from about \$10 per year

3

WEBSITE HOSTING

Website hosting iis what keeps your website pages online and is available to purchase monthly or yearly. Without hosting your website isnt viewable online. Prices for hosting vary pending your needs. Online stores & Bookings are more expensive. Wix offers \$21.85 per month for business hosting & \$10.93 for standard hosting.

4

WEBSITE BUILDER

A website builder allows you a proframme to design your website pages. Website builders vary in capabilities & ease if use. I highly reccomend Wix for stunning website design & its extremly user friendly enabling you to make changes without paying someone every time. Website builders are generally free every time.
